Library Services Platform: ILS + ERM + A-Z **One Search Portal for All your Digital and Print Resources**

- ◆ Manage and search e-resources, print, and media in a single collection
- ◆ Create comprehensive or targeted A to Z lists; publish and export to patrons or search engines
- ◆ Scale anytime to any size collection or consortia, any number of holdings and users

Easy, Seamless ERM/Electronic Resources Management

- ◆ Import, update, and remove aggregator collections such as ClinicalKey, Ovid, EBSCO

Engage Your Patrons

- ◆ Create a virtual library: access online resources directly
- ◆ Promote print and online resources together with all-encompassing A-Z lists
- ◆ Build reading lists by user profile; A-Z lists of DVDs, reference materials, or ebooks; A-Z lists by clinical specialty; by topics such as patient safety
- ◆ Expand the collection's reach and maximize access to resources:
 - ◆ Embed A-Z lists and catalog search box on any web site
 - ◆ Generate citations to EndNotes, Mendeley, and others
 - ◆ Using a tablet? Catalog search and A-Z work seamlessly and look great!
- ◆ Incorporate book and journal covers, photos, graphics, and pdfs
- ◆ Customize fonts, colors, terms, search and display logic, logo, branding, and add custom links
- ◆ Enhance research, include ascending and/or See Related terms with Subject Heading Explosion
- ◆ Optionally integrate with MeSH authorities and National Library of Medicine Medical Subject Headings changes, including qualifiers
- ◆ Track trends, understand patrons, and allocate resources with robust utilization metrics

Serials Management that is Unparalleled

- ◆ Save time, enhance accuracy with fast predictive check-in and routing, claims management, and staff-defined warnings for missing issues
- ◆ Customize displays of holdings and links to e-journals in both OPAC and A-Z renderings

Keeping You Productive

- ◆ Fast, easy start-up
- ◆ Acclaimed client care: free personalized training, Q&A workshops, quick-tours, and more
- ◆ Securely on the cloud since 2000
- ◆ 100% uptime
- ◆ Automatic, non-intrusive product updates and backups
- ◆ Any workstation, browser, tablet, or mobile device
- ◆ Low pricing, countless regular enhancements, no added fees

Standards Compliant

- ◆ MARC 21, MARC-XML, ANSI Z39.50 (Information Exchange), ANSI Z39.71 (Holdings), SQL, 508 Bobby
- ◆ Meets rigorous US government FIPS standards for data encryption both in transit and at rest
