# CyberTools

## Library Services Platform: ILS + ERM + A-Z
## One Search Portal for All your Digital and Print Resources

- Manage and search e-resources, print, and media in a single collection
- Create comprehensive or targeted A to Z lists; publish and export to patrons or search engines
- Scale anytime to any size collection or consortia, any number of holdings and users

## Easy, Seamless ERM/Electronic Resources Management

- Import, update, and remove aggregator collections such as ClinicalKey, Ovid, EBSCO

## Engage Your Patrons

- Create a virtual library: access online resources directly
- Promote print and online resources together with all-encompassing A-Z lists
- Build reading lists by user profile; A-Z lists of DVDs, reference materials, or ebooks;
  A-Z lists by clinical specialty; by topics such as patient safety
- Expand the collection's reach and maximize access to resources:
    - Embed A-Z lists and catalog search box on any web site
    - Generate citations to EndNotes, Mendeley, and others
    - Using a tablet? Catalog search and A-Z work seamlessly and look great!
- Incorporate book and journal covers, photos, graphics, and pdfs
- Customize fonts, colors, terms, search and display logic, logo, branding, and add custom links
- Enhance research, include ascending and/or See Related terms with Subject Heading Explosion
- Optionally integrate with MeSH authorities and National Library of Medicine Medical Subject
  Headings changes, including qualifiers
- Track trends, understand patrons, and allocate resources with robust utilization metrics

**Engage** Patrons
**Promote** Resources
**Improve** Productivity
**Reduce** Risk
**Increase** Profitability
**Facilitate** Innovation

## Serials Management that is Unparalleled

- Save time, enhance accuracy with fast predictive check-in and routing, claims management,
  and staff-defined warnings for missing issues
- Customize displays of holdings and links to e-journals in both OPAC and A-Z renderings

All-Inclusive Components
OPAC
A-Z Lists
Cataloging
